

Spellcheck Addendum for MAOC Classification July 2011

The following spellings have been removed from the spellchecking .dic file because they really are “misspelled” or older forms that are no longer used.

That way, if you have misspelled “Pescatorea”, you will not be faced with 2 choices, both of which are in the .dic file and one of which is wrong! But which one?

In the event of a spelling that you think is correct but that gets flagged as incorrect, you can always check the full MAOC Class document.

Aspodia (see Aspioda)
Bifrenlaria (see Bifrinlaria)
Bifrillaria (see Bifrinlaria)
Brasso-Cattleya-Laelia
Brassavola-Cattleya (see Brassocattleya)
